

About Powerlink Solutions

Our Profile

Powerlink Solutions perform installation of Mechanical Electrical, BMCS, control equipment and infrastructure. We are equipped with the resources to provide installation services from a single wall mount thermostat to multi-story electrical and BMCS installations.

We also have vast experience in many different industries, from mining and wineries to banks, prisons and government departments.

Our unique approach is to provide a comprehensive service delivery to fit our customer needs at all levels, based firmly on providing simple and innovative solutions to all your electrical, mechanical and construction requirements.

As an organisation based on client focus, we understand customer requirements and priorities, and aim to continually provide the quality of service customers expect, with an emphasis on quality electrical solutions. Every project, large or small, is handled with the same attention to programming and efficiency, resulting in high quality work delivered within contractual timeframes and budgets

We can install systems for new or existing clients and we offer support for either planned or breakdown maintenance.

Our Services

Powerlink Solutions has a strong capability for delivering electrical services solutions in these sectors:

- Switchboard design and manufacture
- PLC and motor control centre
- 24Hr service to commercial and industrial industries
- Commercial refrigeration
- Mechanical services
- Mining and power

Current Achievements

To effectively communicate and implement proactive safety management to prevent workplace incidents and accidents we have adopted safety management systems that align with the requirements of the Australian Standard AS4801 to effectively communicate and implement proactive safety management strategies to prevent workplace incidents and accidents.

We provide a flexible design service for all aspects of building services. We can work as part of the client's professional team or independently from the customers brief.

We have successfully completed the following:

- * Channel 9 Playhouse
- * Hunters Hill Private Hospital
- * Dexus Data Centre
- * Stockland Greenhills
- * Arnotts Huntingwood Refrigeration plant upgrade
- * The Residence apartments Hyde Park
